this essay appeared originally in the atlantic monthly for may 1883 during the thirty years which have elapsed since it was written the manifestations of the colonial spirit then apparent in the united states have not only altered in character but i am glad to say have weakened diminished and become less noticeable since 1883 also there has been much achieved by americans in art and literature in painting in sculpture in music and particularly in architecture success in all these fields has with few exceptions been won by men working in the spirit which is not colonial but which it was the purpose of this essay to inculcate as the true one to which alone we could look for fine and enduring achievement i have called attention to the date at which the essay was written in order that those who read it may remember that it applies in certain points to the conditions of thirty years ago and not to those of the present day

this book looks at the progress of american education in the use of technology since the publication of stallard and cocker s last book the promise of technology in schools the next twenty years fifteen years after its publication they find little significant difference in the way k 12 schools are using technology to improve student achievement education technology and the failure of american schools offers a broad and penetrating look at the american educational system to determine why progress is so lacking what is found is a system that has far outlived its functionality in terms of governance organization and professional practices american schools are compared to those of nations whose students regularly outperform them on international tests of achievement the authors offer a bold approach to educational reform that will irritate many who now consider themselves educational leaders the final chapter makes offers a new approach to education in the primary grades one that will surprise those lobbying for more computers for those early learning years this is a must read for anyone concerned about american education the contributors of this book offer clear examples of what is missing in the average school experience explain why teaching and school administration are not true professions discuss levels of failure from the federal level to the local school administration describe how the present system came into being compare educational reform efforts with those in actual professions explain the basic misapplication of technology in the present system

includes articles on international business opportunities

chronicles the development of industry in the united states presented as the diary of a student who visits historic sites on a road trip this book will be an excellent selection for readers who want to know more about the birth and growth of industry in the united states

when president bush promoted shopping as a patriotic duty the american culture of consumption hit a new low but a quiet revolution is growing in the developing world and in a new generation of americans fighting the advance of the shopping malls and the desolation they leave behind written by one of the most insightful critics of american commercialism the business of america probes the forces that have transformed citizens into consumers eager to take as much as they can from the planet from on line shopping to spectator sports to the cash and carry ethos of political campaigns saul landau decodes the subtle ways in which advertising images tell us to correct our inadequacies with more things suvs credit cards air conditioning video games the winds of change are blowing landau shows from resurgent student protests for underpaid janitors to the group of 21 the developing countries that stopped the world trade

organization dead in its tracks in 2003 eschewing nostalgia for a simpler time a less interconnected world that can never return the business of america shows how we as citizens can regain our identities stripping away the plastic overlay of consumerism
