aesop s fables or the aesopica is a collection of fables credited to aesop a slave and storyteller believed to have lived in ancient greece between 620 and

560 bce of diverse origins the stories associated with aesop s name have descended to modern times through a number of sources they continue to be reinterpreted in different verbal registers and in popular as well as artistic media fable as a genre apollonius of tyana a 1st century ce philosopher is recorded as having said about aesop like those who dine well off the plainest dishes he made use of humble incidents to teach great truths and after serving up a story he adds to it the advice to do a thing or not to do it then too he was really more attached to truth than the poets are for the latter do violence to their own stories in order to make them probable but he by announcing a story which everyone knows not to be true told the truth by the very fact that he did not claim to be relating real events philostratus life of apollonius of tyana book v 14 the greek historian herodotus mentioned in passing that aesop the fable writer was a slave who lived in ancient greece during the 5th century bce among references in other writers aristophanes in his comedy the wasps represented the protagonist philocleon as having learnt the absurdities of aesop from conversation at banquets plato wrote in phaedo that socrates whiled away his jail time turning some of aesop s fables which he knew into verses nonetheless for two main reasons because numerous morals within aesop s attributed fables contradict each other and because ancient accounts of aesop s life contradict each other the modern view is that aesop did not solely compose all those fables attributed to him if he even existed at all instead any fable tended to be ascribed to the name of aesop if there was no known alternative literary source in classical times there were various theorists who tried to differentiate these fables from other kinds of narration they had to be short and unaffected in addition they are fictitious useful to life and true to nature in them could be found talking animals and plants although humans interacting only with humans figure in a few typically they might begin with a contextual introduction followed by the story often with the moral underlined at the end setting the context was often necessary as a guide to the story s interpretation as in the case of the political meaning of the frogs who desired a king and the frogs and the sun sometimes the titles given later to the fables have become proverbial as in the case of killing the goose that laid the golden eggs or the town mouse and the country mouse in fact some fables such as the young man and the swallow appear to have been invented as illustrations of already existing proverbs one theorist indeed went so far as to define fables as extended proverbs in this they have an aetiological function the explaining of origins such as in another context why the ant is a mean thieving creature other fables also verging on this function are outright jokes as in the case of the old woman and the doctor aimed at greedy practitioners of medicine origins the contradictions between fables already mentioned and alternative versions of much the same fable as in the case of the woodcutter and the trees are best explained by the ascription to aesop of all examples of the genre some are demonstrably of west asian origin others have analogues further to the east modern scholarship reveals fables and proverbs of aesopic form existing in both ancient sumer and akkad as early as the third millennium bce aesop s fables and the indian tradition as represented by the buddhist jataka tales and the hindu panchatantra share about a dozen tales in common although often widely differing in detail there is some debate over whether the greeks learned these fables from indian storytellers or the other way or if the influences were mutual loeb editor ben e perry took the extreme position in his book babrius and phaedrus that in the entire greek tradition there is not so far as i can see a single fable that can

be said to come either directly or indirectly from an indian source but many fables or fable motifs that first appear in greek or near eastern literature are found later in the panchatantra and other indian story books including the buddhist jatakas although aesop and the buddha were near contemporaries the stories of neither were recorded in writing until some centuries after their death few disinterested scholars would now be prepared to make so absolute a stand as perry about their origin in view of the conflicting and still emerging evidence

fables and fabulists ancient and modern the fable or apologue has been variously defined by different writers mr walter pater paraphrasing plato's definition says that fables are medicinal lies or fictions with a provisional or economized truth in them set forth under such terms as simple souls can best receive the sophist aphthonius taking the same view defines ³ the fable as a false discourse resembling truth the harshness of both these definitions is scarcely relieved by their quaintness to assert that the fable is a lie or a falsehood does not fairly represent the fact a lie is spoken with intent to deceive a fable in its relation can bear no such construction however exaggerated in its terms or fictitious in its characters the meanest comprehension is capable of grasping the humour of the situation it creates even the moral that lurks in the narration is often clear to minds the most obtuse this is at least true of the best fables dr johnson in his *Life of Gay* remarks that a fable or epilogue seems to be in its genuine state a narrative in which beings irrational and sometimes inanimate *quod arbores loquantur non tantum ferunt* are for the purpose of moral instruction feigned to act and speak with human interests and passions dodsley says that 'tis the very essence of a fable to convey some moral or useful truth beneath the shadow of an allegory boothby defines the ⁴ fable as a maxim for the use of common life exemplified in a short action in which the inhabitants of the visible world are made the moral agents g moir bussey states that the object of the author is to convey some moral truth to the reader or auditor without usurping the province of the professed lecturer or pedant the lesson must therefore be conveyed in an agreeable form and so that the moralist himself may be as little prominent as possible mr joseph jacob says that the beast fable may be defined as a short humorous allegorical tale in which animals act in such a way as to illustrate a simple moral truth or inculcate a wise maxim these various definitions or descriptions apply more especially to the ⁵ isopian fable and it is with this that we are dealing at present which is par excellence the model of this class of composition steele declares that the virtue which we gather from a fable or an allegory is like the health we get by hunting as we are engaged in an agreeable pursuit that draws us on with pleasure and makes us insensible of the fatigues that accompany it this is applied to the longer fable or epic such as the *Iliad* and *Odyssey* of homer or the ⁵ faerie queen of spenser rather than to the fable as the term is generally understood otherwise the simile is somewhat inflated one more definition may be attempted the ⁶ isopian fable or apologue is a short story either fictitious or true generally fictitious calculated to convey instruction advice or reproof in an interesting form impressing its lesson on the mind more deeply than a mere didactic piece of counsel or admonition is capable of doing we say a short story because if the narration is spun out to a considerable length it ceases to be a true fable in the ordinary acceptation of the term and becomes a tale such for example as a fairy tale now a fairy or other fanciful tale usually or invariably contains some romance and much improbability it often deals largely in the superstitious and it is not necessarily the vehicle for conveying a moral the very opposite holds good of a fable although animals are usually the actors in the fable there is an air of naturalness in their assumed speech and actions the story may be either highly imaginative or baldly matter of fact but it never wanders beyond the range of intuitive as opposed to actual or natural experience and it always contains a moral in a word a fable is or ought to be the very quintessence of common sense and wise counsel couched in brief narrative form it partakes somewhat of the ⁶ character of a parable though it can hardly be described as a parable because

this is more sedate in character has human beings as its actors and is usually based on an actual occurrence though parables are not fables in the strict and limited meaning of the term they bear a close family relationship to them parables may be defined as stories in allegorical dress the scriptures both old and new abound with them the most beautiful example in the old testament is that of nathan and the ewe lamb in which david the king is made his own accuser this was a favourite mode of conveying instruction and reproof employed by our lord christ often spake in parables and with what feelings of reverential awe must we regard the parables of the gospels coming as they did from the lips of our saviour
